

segment-c-catholic-schools

Segment C — Catholic Schools

For Catholic schools (K–12, and independent Catholic high schools) with meaningful Hispanic enrollment or a Guadalupe/Marian devotional culture. Same 3-email cadence as Segments A and B, framed for a school audience — multiple classrooms, chapel/gym space, curriculum tie-ins, bulk pricing.

Recommended send window: early-to-mid October — before religion departments finalize Advent and Dec 12 lesson planning.

Roles to target (in order)

1. **Religion department chair** or lead religion teacher (best match)
2. **Campus ministry director**
3. **Principal / Head of School** (decision authority for bulk orders)
4. **Hispanic ministry / diversity coordinator** (larger schools)
5. **Advancement or development office** (for graduation-gift or class-legacy angle)
6. **General school info address** (fallback only)

Personalization variables

Same base set as Segments A and B, plus school-specific fields:

Variable	Example
@firstname	David
@schoolname	St. Ignatius Catholic School
@city	Chicago
@state	IL
@contactrole	Religion Department Chair
@schoollevel	K-8 / High School / PK-12

@schoollevel doesn't have to appear in the copy but is useful for CSV filtering (e.g., only send the "graduation-gift" angle to high schools).

Email 1 — Introduction / authenticity

Send: Day 0 (Tuesday or Wednesday morning)

Subject: An authentic Our Lady of Guadalupe canvas for @schoolname

Preview text: 24×36 rolled canvas, printed from the tilma scan in Mexico. \$114 each, bulk pricing for multiple classrooms.

Body:

Dear @firstname,

I'm writing to the @contactrole at @schoolname in @city, @state because the students you teach may find the image of Our Lady of Guadalupe especially meaningful this year.

Primos Maternos offers a 24" × 36" rolled canvas reproduction of the tilma of Saint Juan Diego. The original digital image was created in Mexico from a high-resolution scan made directly from the tilma at the Basilica in Mexico City. The canvas is printed in the USA on archival stock. Two certificates from Mexico verifying the authenticity of the image are included with every order.

\$114 per canvas. Free shipping to the 50 U.S. states and Puerto Rico. Bulk quotes for multiple classrooms.

The year is well-timed: Pope Leo XIV has opened a Jubilee Year for Our Lady of Guadalupe (October 12, 2026 through October 12, 2027) marking 50 years since the tilma was transferred into the current New Basilica in Mexico City. It runs through the entire school year and into next.

Email 2 — Curriculum / value

Send: Day 4

Subject: Two Guadalupe resources for your Dec 12 lesson plans

Preview text: Symbolism the Aztecs read, and the science that cannot explain the tilma. Free reading for religion, history, and Spanish classes.

Body:

Dear @firstname,

Not a sales email — two short reads your religion, history, or Spanish teachers may find useful for the Dec 12 unit or Advent programming.

A Codex in the Image — what an Aztec saw in the tilma at a glance in 1531. The mestiza face anticipating a race that didn't yet exist. Hair parted and untied (the Aztec sign for a pregnant virgin). The black sash (maternity belt). The four-petaled Nahuatl Ollin over the womb (the Aztec glyph for the presence of God). The stars on her mantle matching the actual sky over Mexico City on the morning of December 12, 1531. Nine million baptisms in ten years. [Read →](#)

What Science Cannot Explain About the Tilma — a cactus-fiber cloak that should have decayed in 20 years, still intact after 495. Nobel chemist Richard Kuhn on the pigments. Callahan and Smith's infrared analysis at NASA. Thirteen human figures found in the pupils of the eyes by a Cornell-trained IBM engineer. Faith-and-science material for high school religion or philosophy. [Read →](#)

Both are free to link in your LMS or share in a bulletin.

For schools that would like the image itself in the classroom, we make a 24" × 36" rolled canvas — printed in the USA from the same authenticated high-resolution scan of the tilma — for \$114 with free U.S. shipping and two Mexican certificates of authenticity. Bulk pricing for multiple classrooms.

Email 3 — School use cases / final CTA

Send: Day 10

Subject: Ideas for the Guadalupe canvas at @schoolname

Preview text: Classrooms, chapel, hallway, gym, graduation gift — nine places schools have put it, plus how bulk quotes work.

Body:

Dear @firstname,

A last note.

The 24" × 36" rolled canvas we make has been ordered by Catholic schools for:

- Religion education classrooms (one per teacher — most common)
- The school chapel or prayer room
- Main hallway or lobby
- Library beside a Marian book display or Latin American history section
- Cafeteria or student commons for December
- Faculty lounge and administrative offices
- Dec 12 processions and school Mass
- Graduation gift or class legacy — framed and installed permanently
- Diocesan bulk orders across multiple schools

\$114 per canvas. Free shipping. Printed in the USA. Two certificates from Mexico. Bulk quotes on request.

If @schoolname is thinking about outfitting more than one classroom — a typical order is 5 to 15 for a religion department — reply to this email or text me at 732-673-4260 for a bulk quote. Purchase orders accepted.

Order for @schoolname →

Thanks, Peace Bill
